**CHANDIGARH
UNIVERSITY**
Discover. Learn. Empower.

PROFESSIONAL SUMMARY

MCA (AI & ML) student with hands-on experience in developing AI-powered applications, backend systems, and scalable software solutions. Skilled in building production-ready products that solve real-world problems, with a strong foundation in Python, machine learning, and cloud technologies.

EDUCATION

- Chandigarh University, Uttar Pradesh** | Master of Computer Applications (AI & ML) | 2025 - 2027 CGPA: 8.47
- Dr. Virendra Swaroop Institute of Computer Studies** | Bachelor of Computer Applications | 2022 - 2025 CGPA: 7.55
- Cambridge High School, Kanpur** | Higher Secondary and High School

FREELANCE EXPERIENCE

Freelance Developer | 3+ Years of Experience

Apr 2023 – Present

- Delivered 12+ real-world projects including e-commerce platforms, school management systems, and custom software solutions.
- Collaborated with a small development team to design, build, and deploy client-focused applications.

PROJECTS

LeetCode Challenge Evaluation System (644+ Users)

Mar 2026 – Present

Tech: Python, SQL, Backend Systems, Automation

- Developed and deployed a scalable LeetCode Challenge Evaluation System supporting 644+ active users with automated submission tracking and real-time scoring.
- Implemented strike-based elimination, performance monitoring, and dynamic leaderboard generation to streamline large-scale coding competitions.

SmileSync – AI-Based Attendance System (300+ Users)

Oct 2023

Tech: Python, OpenCV, Computer Vision, Flask

- Developed a real-time attendance system using face detection and recognition
- Automated manual attendance processes, improving accuracy and efficiency for **300+ users**
- Implemented image processing pipelines for reliable facial identification

TECHNICAL SKILLS

- Programming languages and Tools:** C, C++, Python, Java, SQL, Flask, Git, GitHub, GitLab, Claude
- AI/ML:** LLM, LangChain, LangGraph, RAG, NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn
- Backend & Systems:** API Development & Integration, System Design Fundamentals, Automation (n8n), Linux
- Cloud:** AWS (EC2, S3, IAM, VPC, RDS, Lambda, CloudWatch)

ACHIEVEMENTS & LEADERSHIP

- SAS Certified - SAS Certified Specialist: Forecasting and Optimization Using SAS Viya**
Certificate Verification Number: c275d50dcd024fbd86a7258e545bdcf
- Secured Top 5** - HackWithUttarPradesh State-Level Hackathon (2025)
- Serving as Tech Leader (**AI Development Domain**) at **Innoverse Coding Club**, Chandigarh University • Winner – Code-A-Thon (College Level Coding Competition)

INTERESTS & HOBBIES

- LeetCode and problem-solving.
- Trekking and Travelling: Love to explore nature which gives me constant boosts and motivation.
